

Starter Pack: Challenge 2

A challenge for 6 students

Te whai hua - kia ora!

sorted
in Schools

Plan a school sports trip somewhere in New Zealand.

- ◆ Plan a school sports trip somewhere in New Zealand for a group of six students and two adults.
- ◆ You will be away for three nights and four days.
- ◆ Your budget is the amount of money you have earned through the challenges.
- ◆ You can combine your SORTED dollars to meet the challenge.
- ◆ Each group will present their plan to the class who will decide on the best one.

Instructions:

Download and complete the [Event Planner](#) to track your costs and expenses.

Planning considerations:

- The trip destination must be to Auckland, Wellington, Christchurch or Dunedin and you need to include airfares. You will have to fly from your nearest airport to one of these main centres, but you will be given a lift to and from the airport to your school so there is no cost for that.
- Your trip must be planned for within the next 16 weeks.
- Include one fun activity in the city you are travelling to.
- Read the checklist and tick each item once it is complete.
- When you have found and calculated the cost for each item, add it to the Event Planner.
- Plan this trip as cheaply as possible so that the group that spends the smallest amount wins the challenge.
- Save as much as you can when you are planning.

Checklist:

- Check airfares from your nearest airport to one main centre in New Zealand. You will need to purchase eight return fares. Consider sharing bags to save money.
- You'll need accommodation for eight people in the main centre destination. Check accommodation prices in the main centre to get a good deal. There must be sleeping spaces for six students and two adults.
- **Food:** Count the number of meals you'll need and decide on some food options. Allocate an amount per meal each day and multiply by 8.
- **Transport:** Find the cost of transport to and from the sports venue for the three days of the event. For the remainder of the time, you will use public transport.
- Public transport x 2 days
